

CMMC LEVEL 2 READINESS ASSESSMENT

[Client Legal Name]

NIST SP 800-171 Rev. 2 · Self-Assessment Snapshot

This report summarizes the control-by-control readiness of [Client] against the 110 security requirements of NIST SP 800-171 Rev. 2, prepared in support of the [program / prime / solicitation]. It is intended for executive review and ahead-of-assessment remediation planning. This document is **not** a C3PAO certification.

REPORT ID

[VG-CMMC-YYYY-NNNN]

ASSESSMENT WINDOW

[YYYY-MM-DD] – [YYYY-MM-DD]

SYSTEM BOUNDARY

[CUI environment, locations, in-scope assets]

CMMC TARGET LEVEL

Level 2 (Advanced)

ISSUING CONTRACTOR

Vulnaguard LLC · CAGE 21QQ7

LEAD ASSESSOR

Sean Murrill · Principal

ISSUE DATE

[YYYY-MM-DD]

VALIDITY

30 days for delta change-tracking

READINESS AT A GLANCE

SPRS SCORE (SELF-ASSESSMENT)

[Interpretation] — Significant gaps remain. Estimated **90–120 day** remediation path to a sustainable Level 2 posture.

CONTROLS MET

[78] / 110

Fully implemented per NIST 800-171A objectives.

PARTIAL

[14] / 110

Implemented with documented gaps or weak evidence.

GAPS

[18] / 110

Not implemented or no evidence available.

OPEN POA&M ITEMS

[18]

Tracked in §3; prioritized by SPRS weight.

HEADLINE FINDINGS

1. **Access Control (3.1).** [1-line summary of finding — e.g., MFA not enforced on privileged remote access.] *SPRS impact: -5.*
2. **Audit & Accountability (3.3).** [Finding summary — e.g., log retention < 90 days for CUI systems.] *SPRS impact: -3.*
3. **Configuration Management (3.4).** [Finding summary.] *SPRS impact: -3.*
4. **Identification & Authentication (3.5).** [Finding summary.] *SPRS impact: -5.*
5. **System & Information Integrity (3.14).** [Finding summary.] *SPRS impact: -5.*

Top recommendation. Focus the first 30 days of remediation on the five highest-weighted gaps above; closing them is estimated to add **+21 SPRS points** and bring the score above +83, the threshold typically cited for prime-contract eligibility.

POSTURE BY 800-171 DOMAIN

Coverage across the fourteen NIST 800-171 control families. Domain readiness is the fraction of controls scored "Met" in each family.

FAMILY	DOMAIN	CONTROLS	MET	PARTIAL	GAP	POSTURE	STATUS
3.1	Access Control	22	15	3	4		Partial
3.2	Awareness & Training	3	3	0	0		Met
3.3	Audit & Accountability	9	5	2	2		Partial
3.4	Configuration Management	9	6	2	1		Partial
3.5	Identification & Authentication	11	7	1	3		Partial
3.6	Incident Response	3	2	0	1		Partial
3.7	Maintenance	6	5	1	0		Met
3.8	Media Protection	9	7	1	1		Partial
3.9	Personnel Security	2	2	0	0		Met
3.10	Physical Protection	6	5	1	0		Met
3.11	Risk Assessment	3	2	0	1		Partial
3.12	Security Assessment	4	3	0	1		Partial
3.13	System & Comms Protection	16	10	3	3		Partial
3.14	System & Info Integrity	7	3	0	4		Gap

How to read this page. The bars are visual indicators of control coverage, not a substitute for the per-control evidence and findings detailed in **Appendix A**. Each "Gap" must have an entry in the POA&M referenced on page 4 with an owner and remediation date.

TOP REMEDIATION ITEMS

Top open POA&M items ranked by SPRS-weight impact. Full POA&M provided as a separate workbook (**Appendix B — POA&M v1.0**).

POA&M ID	CONTROL	WEAKNESS	REMEDiation	SPRS	TARGET
PA-001	3.5.3	MFA not enforced on privileged remote access	Roll out FIDO2 for admins; SSO + MFA enforcement	-5	[YYYY-MM-DD]
PA-002	3.13.11	FIPS-validated crypto not confirmed across CUI flows	Inventory crypto libraries; replace non-FIPS modules	-5	[YYYY-MM-DD]
PA-003	3.14.1	No formal patch / flaw remediation cadence	Stand up monthly patch cadence with SLA evidence	-5	[YYYY-MM-DD]
PA-004	3.1.1	Privileged account inventory incomplete	Joiner-mover-leaver workflow; quarterly attestation	-3	[YYYY-MM-DD]
PA-005	3.3.5	Audit log review not consistent for CUI systems	Centralize logs to SIEM with weekly review record	-3	[YYYY-MM-DD]
PA-006	3.4.6	System baseline drift not tracked	Implement config baseline + change approval evidence	-3	[YYYY-MM-DD]
PA-007	3.11.1	Annual risk assessment not formally documented	Adopt the Vulnaguard risk register template	-1	[YYYY-MM-DD]
CUMULATIVE SPRS RECOVERY (TOP 7)				+25	90 days

ENGAGEMENT NOTE

Scope & caveat. This Vulnaguard readiness report is a self-assessment artifact prepared for executive planning and prime qualification responses. It does not constitute a C3PAO Level 2 certification. Findings reflect evidence and interviews from the window listed on the cover page; subsequent system changes are not reflected. Underlying control-by-control evidence, narrative, and assessor notes are maintained by Vulnaguard for 12 months under SOW §11 (Confidentiality).
