EXECUTIVE SUMMARY

[Client name] seeks [summary of need — e.g., CMMC L2 readiness in support of a DoD prime contract]. Vulnaguard proposes a [duration] engagement that delivers [primary deliverable] and an actionable [secondary deliverable], priced at \$[X,XXX] firm fixed-price. The engagement is led personally by our Principal, ensuring continuity from kickoff through close-out.

OUR UNDERSTANDING

[2–4 sentences restating the client's situation, the goal, and the constraints in the client's words. Demonstrate you read the solicitation; name the program, the deadline, the prime, the contract vehicle. Acknowledge any specific mandatory clauses or set-asides.]

PROPOSED APPROACH

1

Discover

Kickoff, scope confirmation, evidence inventory, system & data-flow walk-through.

2

Assess

Control-by-control review against [NIST 800-171 / CMMC L2], interviews, artifact inspection.

3

Report

Gap analysis, scored findings, prioritized POA&M, executive read-out.

4

Close

Acceptance, archive, optional retainer transition into Sentinel monitoring.

TEAM & QUALIFICATIONS

- **Principal Consultant — Sean Murrill.** [10+ yrs information security, current InfoSec Analyst role, freelance compliance engagements. Add named certifications: Sec+, CySA+, CC, etc.]
- **Domain coverage.** NIST SP 800-171 Rev 2 (preparing for Rev 3), CMMC 2.0 L1/L2, NIST CSF, CIS Controls.
- **Tooling.** Vulnaguard Sentinel platform, [Splunk / CrowdStrike / Tenable / Defender — list yours], evidence collection automation.
- **Past performance.** [List 2–3 short bullets from your freelance engagements — type of client, scope, quantified outcome.]

WHY VULNAGUARD

Right-Sized

Built for \$2.5K–\$20K micro-purchase / SAP awards — no overhead drag on small ceilings.

Owner-Delivered

Engagement led personally by the Principal — no offshore handoff, no markup chain.

Platform-Backed

Sentinel automates evidence tracking so manual control reviews don't go stale.
